- ▶ **Where do I even begin! Eve started at Dance Works a few years ago. It was the affordable pricing that initially got us to come in the first place and then we fell in love with everything else. Everything is orchestrated like a well-oiled machine. From picking up costumes, to pictures, to recitals themselves. Evey loved dancing so much that her little sister Becca wanted to join as well! Their teachers have been phenomenal throughout each season. But the prayers and the way the dance community is behind you when things get tough is just one more thing we have loved about Dance Works. They take the time to pray and have the whole dance studio involved in well wishes. Our girls LOVE dancing there. They have grown so much in their technique and truly enjoy going to class. I can't wait to see what this next season holds.**
